HEMATOLOGY ONCOLOGY HOROSCOPE 3.0

PRECISION TODAY. CURES TOMORROW.

Dear Colleagues,

It is with great pleasure that we invite you to the 3rd edition of our flagship academic meeting, **Hematology Oncology Horoscope 3.0**, to be held on **30th August 2026** at **JW Marriott, Mumbai Sahar**.

The landscape of Hematology-Oncology is evolving rapidly. Since our last meeting, we have witnessed major breakthroughs including rapid change in genetic and molecular risk stratification of hematological malignancies, the emergence of Menin and IDH1 inhibitors in AML, the Bispecific antibody revolution in Multiple Myeloma and Lymphoma, Immunotherapies in ALL and significant updates in MDS classifications.

Today, the clinical question has shifted from **“What is the mutation?”** to **“How do we sequence therapies based on the mutation for the patient sitting in front of us?”**

Why Attend?

- The **“Horoscope”** Perspective: Learn how to predict patient’s personalised treatments and outcomes using the latest biomarkers including cytogenetics and molecular studies, MRD, and clonal evolution patterns.
- Decipher the Data: We distil thousands of key abstracts from **ASH 2025, EHA 2026**, and other major publications from the past year into practical, concise clinical updates.
- Clinical Applicability: Our hallmark **“How I Treat”** sessions focus on translating cutting-edge molecular science into real-world clinical decision-making.

Join us for a highly interactive academic forum where science meets clinical practice, and together we chart the future of Hematology-Oncology care.

We look forward to welcoming you to Mumbai.

Sincerely,
Organizing Committee
